ACHIEVEMENTS

Signa tech Private Ltd
Star performer of month , handle all the internal development and production deployments

PROJECTS

Signadart (03/2023 - 06/2024)
- Delivered a highly responsive web interface that improved user engagement and participation rates.
- Implemented real-time data synchronization between frontend and backend.
- Streamlined deployment process, reducing release time and improving CI/CD efficiency.

MapAi - Multi Agent Platform (06/2024 - 12/2024)
- Designed and implemented a seamless user experience for managing multiple AI agents in one platform.
- Connected and configured Azure AI Foundry for custom model training and interaction.
- Led end-to-end deployment across multiple environments with efficient release management.

CCAT - Management Software (12/2024 - 06/2025)
- Delivered end-to-end development with complete backend logic and data flow design.
- Built robust APIs using Express.js and managed MongoDB data models efficiently.
- Handled production deployments, ensuring smooth releases and zero downtime.

SignaInsights (06/2025 - Present)
- Migrated the entire frontend from Angular to React, improving load time and usability.
- Redesigned .NET APIs to enable data isolation and scalability across multiple clients.
- Strengthened system performance and user experience across environments.
